Steven Hurwitz

GRAPHIC DESIGN • ILLUSTRATION

Intense, brilliant, visually poetic, honest, and clear.

Whether graphically portraying social injustice, simple childhood events, wars or random people, my style as an illustrator and graphic designer is simple, lyrical, and inwardly imaginative.

Using vivid colors to explore emotions and to help understand our human condition, I strive for an immersive art experience that others can co-participate in.

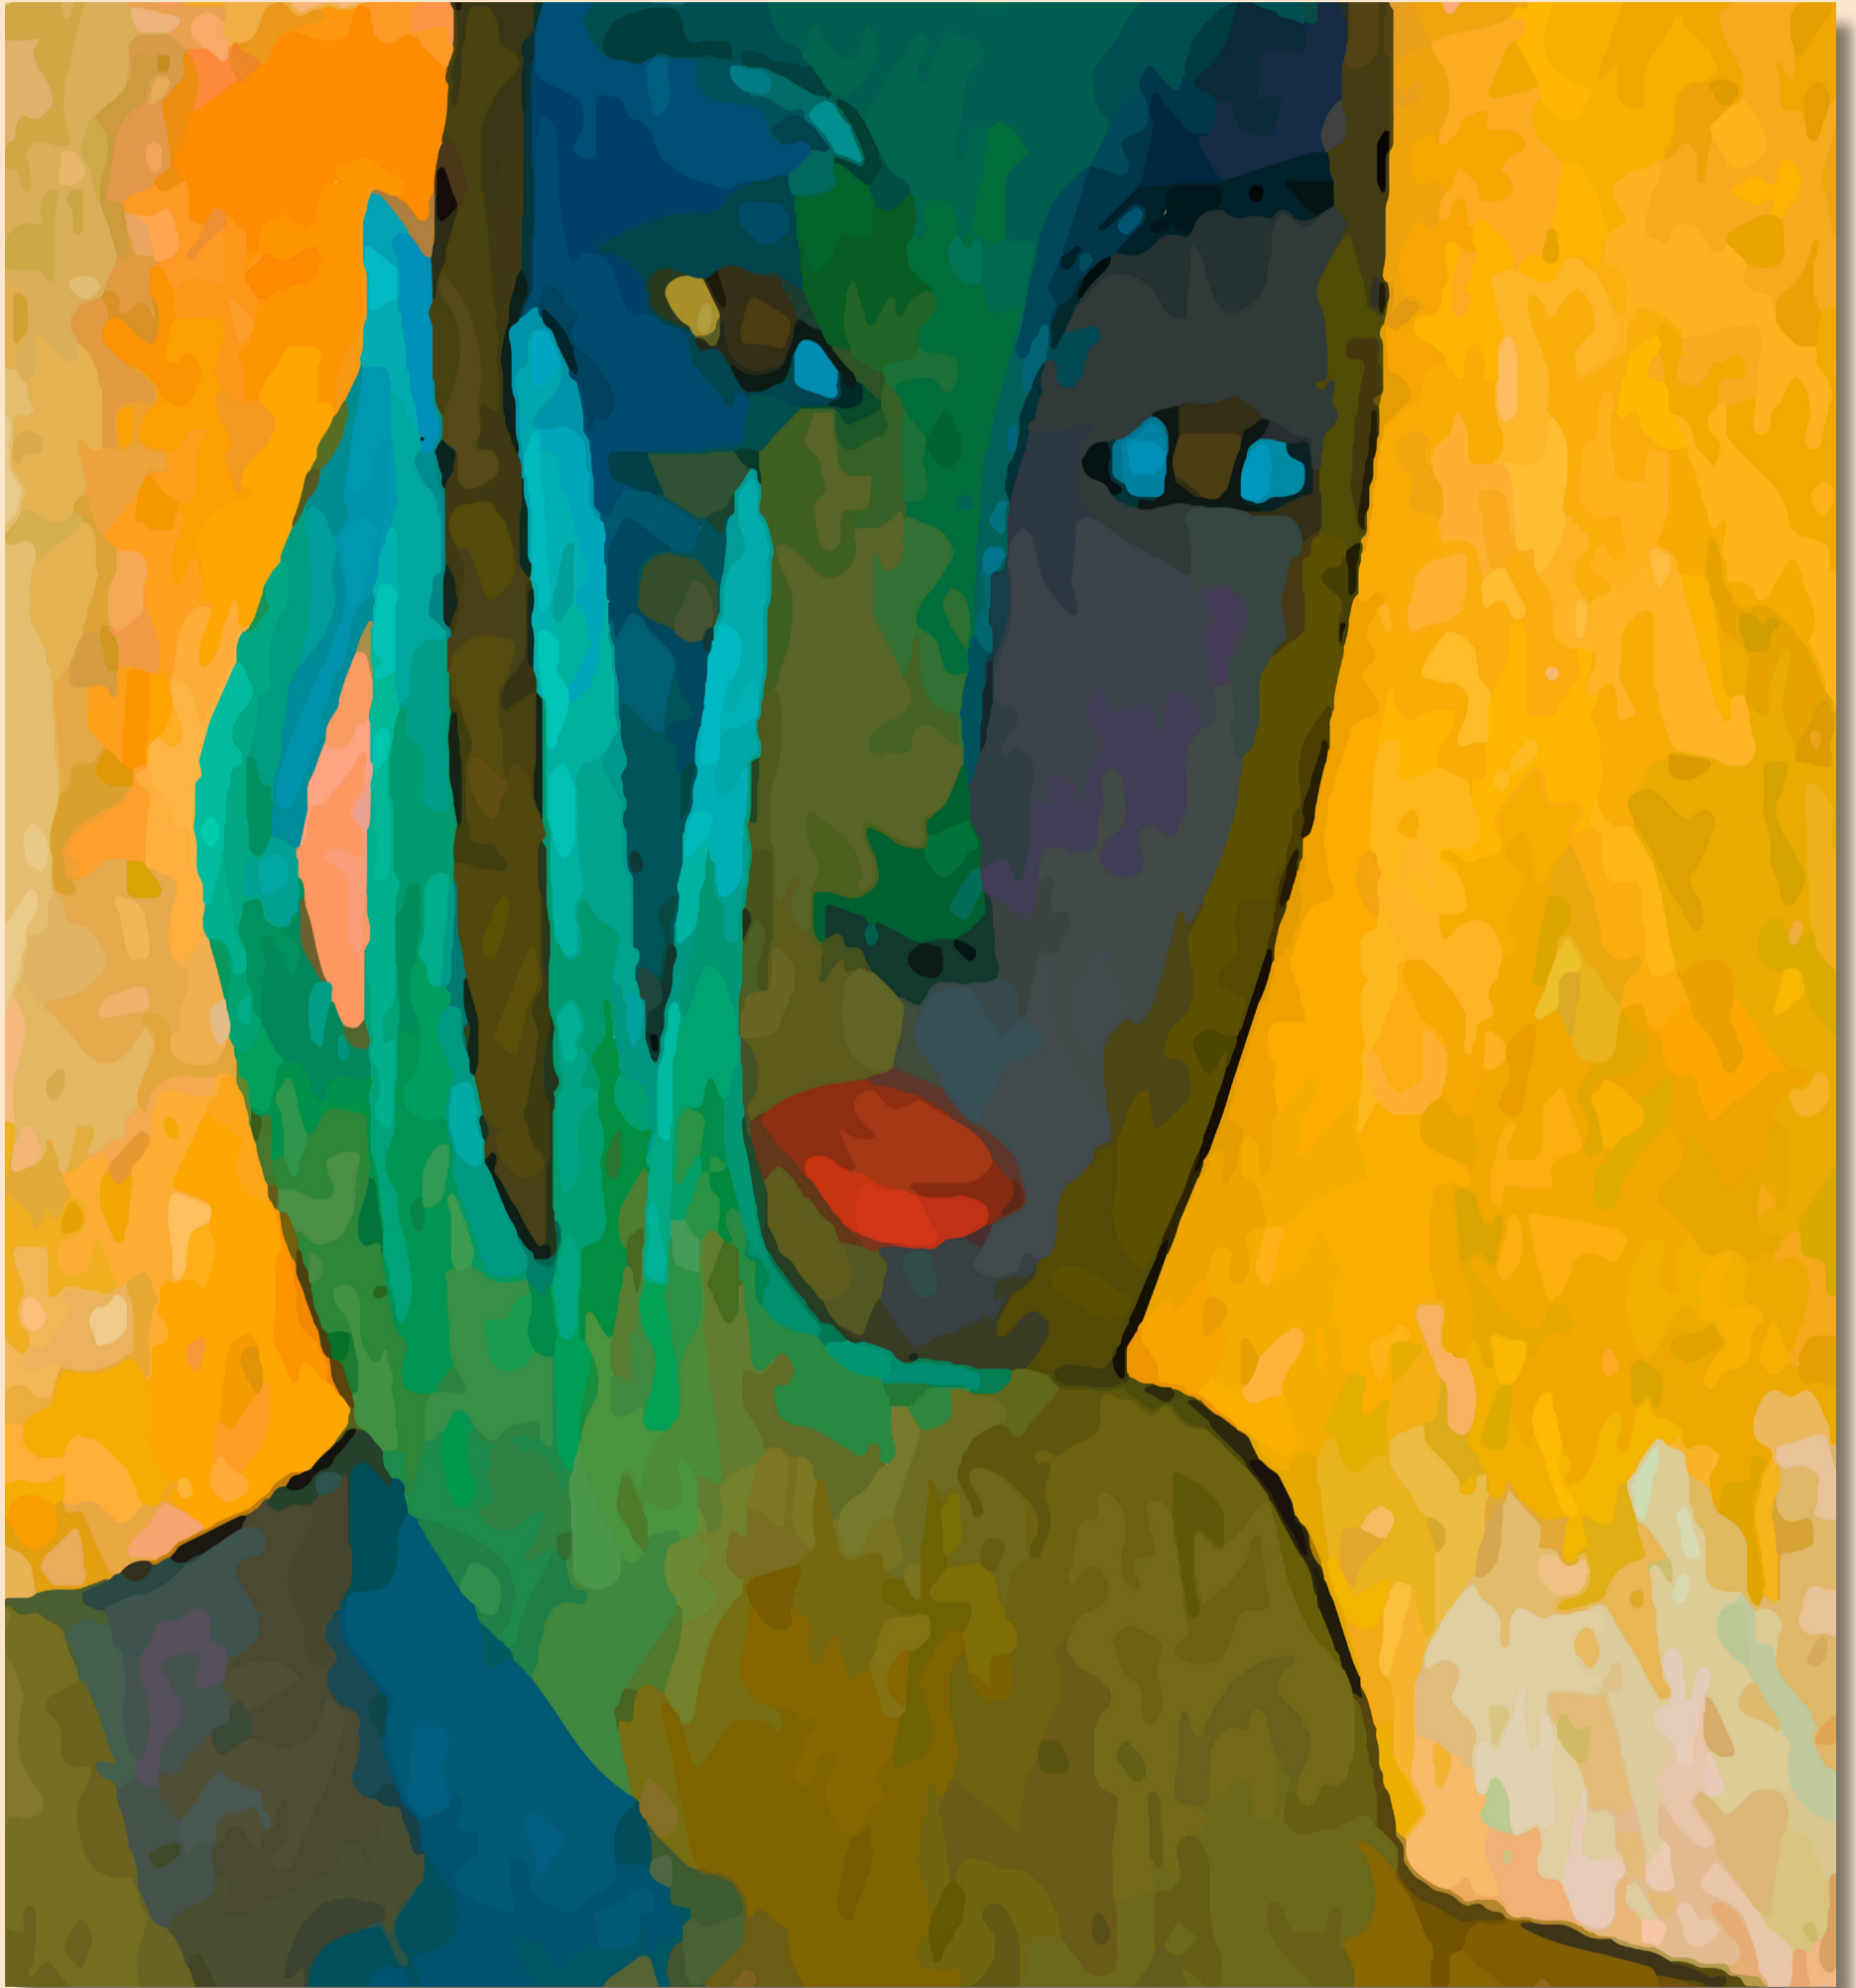

As a designer and illustrator, I advise you personally on graphic issues and develop - together with you - a solution that represents your new or renewed visual appearance, whether for pleasure or business.

I present this short deck for you see some examples of my work. I hope you will partake in its richness, and and join my world of digital arts

TO HOLD AND CARE FOR ANOTHER
MEANS TO LOVE THE TIME
THAT PASSES TOGETHER.

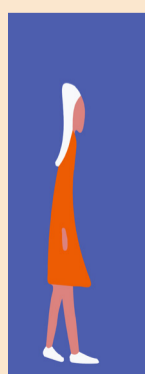

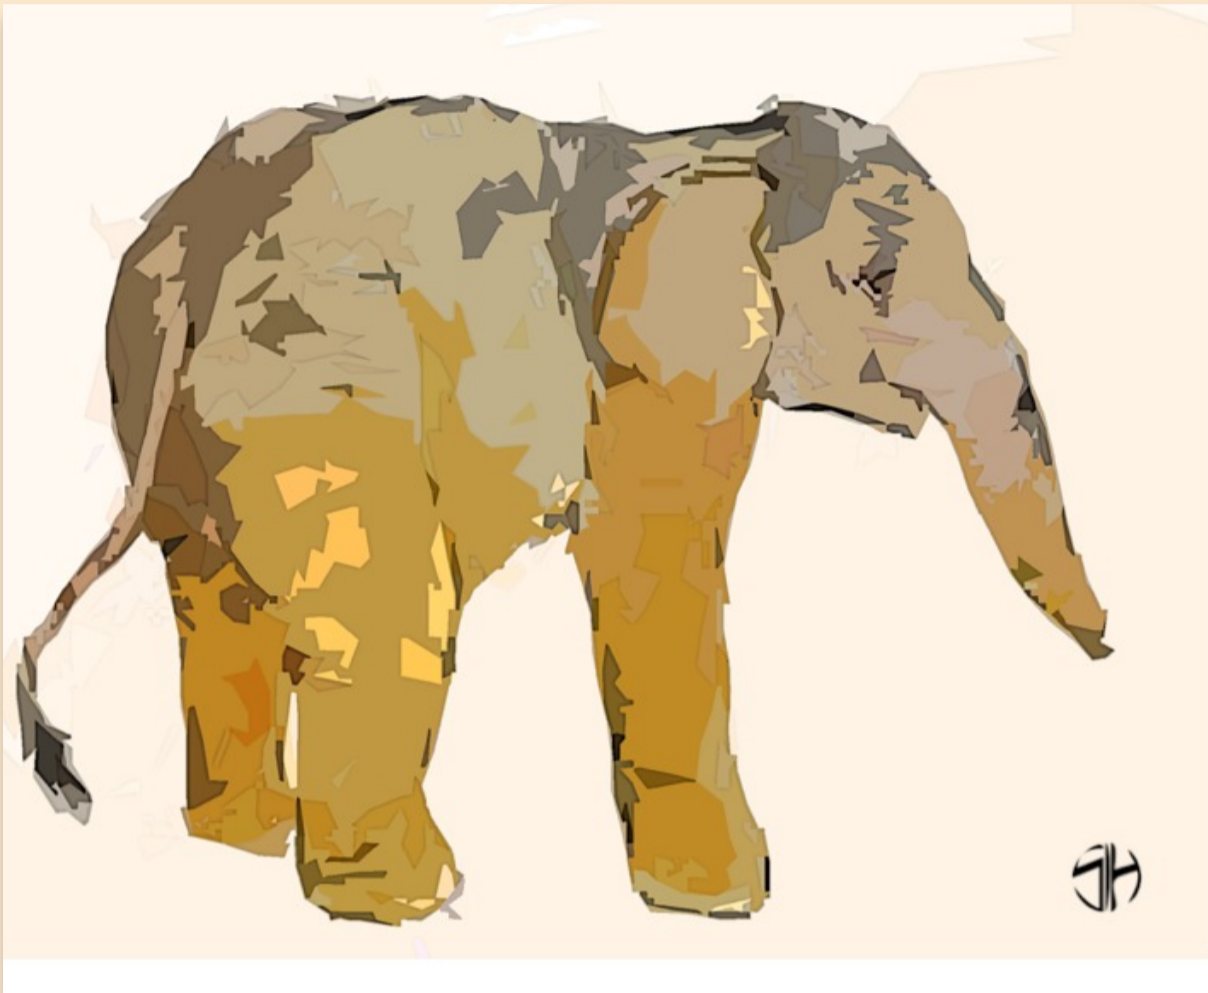

MEANINGFUL

There is an
untamed world
between the sacred
and design, where
the essence of
creativity is birthed
from silence ...

where the outer
and the inner
worlds coincide.
